

## Board Goals for 2016-2017

Focus on literacy across the curriculum to improve reading/writing skills across content areas and develop a plan to monitor the implementation and impact of each strategy as it relates to this goal.

- Training for teachers and administrators on best practices focused on in performance evaluations.
- Utilize strategies identified to support students in specific subgroups in reading development, based on need.
- Ensure students, staff and families know reading is a priority.
- Set a minimum threshold of time to spend on literacy activities daily and monitor for implementation.

Develop a tight and aligned curriculum, utilizing best practice instructional strategies that maximize student success and develop a plan to monitor the implementation and impact of each strategy as it relates to this goal.

- Focus on system implementation to support best practice strategies related to instruction.
- Focus on tightening alignment between enacted curriculum and documented curriculum.
- Utilize meetings across grade levels to support vertical alignment (K-12).
- Develop "performance management" indicators that review student data and track growth.

Positively impact our district's climate and culture through improved relationships and support at all levels and to develop a plan to monitor the implementation and impact of each strategy as it relates to this goal.

- Improve PLC Implementation with ongoing coaching support from the ISD.
- Implement empowerment/support strategies with students that build peer support, self-motivation and confidence.
- Evidence of improvement of PLC functioning and relationships with and between students based on pre and post surveys (baseline already established).
